

Helping To Create a Greener Future

WWEX Group is accelerating sustainability through bold recycling initiatives and energy-saving innovations. Despite being a non-asset-based company, we are committed to reducing our environmental footprint and enhancing efficiency.

Ways We Are Making an Impact

Recycling Success

Minimizing landfill contributions and waste reduction.

25.7

Tons of materials recycled/shredded, equivalent to four elephants

Digital Transformation

By using DocuSign for electronic signatures and document management.

81,279

Pounds of carbon emissions saved

101,959

Gallons of water conserved

34,627

Pounds of wood preserved

5,627

Pounds of waste eliminated

Energy Efficiency

LED lighting & smart HVAC systems cutting down energy consumption and operational costs.

48%

Percentage of office space LEED/Energy Star certified

Remote Work Revolution

Reducing commuting-related carbon emissions while supporting employee work-life balance.

51.5%

Percentage of employees working from home

Financial Operations

Eliminating paper checks for streamlined eco-friendly financial operations.

99.93%

Percentage of payments distributed through ACH

Downsizing & Efficiency

Exploring further reductions in physical environments to boost efficiency and sustainability.

48

Number of offices after downsizing space

Why WWEX Group's Efforts Matter

WWEX Group is not just reducing its carbon footprint; it's setting the industry standard for a more sustainable future in logistics.

Logistics Industry Footprint

In 2023, the logistics industry produced **7 percent** of global greenhouse emissions.¹

Our Commitment

With initiatives like **recycling** and **energy efficiency**, WWEX Group is setting a benchmark for the sector.

Paperless Movement

The average company in the U.S. uses **10,000 sheets** of paper per employee annually.²

Our Innovations

By saving over **81,000 lbs.** of carbon emissions and eliminating **5,600 lbs.** of waste, we outperform most companies.

At WWEX Group, sustainability isn't just an initiative — it's part of our DNA. We're committed to reducing our environmental footprint while driving innovation in the logistics space."

Tyen Madine | CEO, WWEX Group

WWEX Group's Vision for a Sustainable Future

With continued focus on energy efficiency, recycling, digital processes and remote work, WWEX Group is poised to set new standards for sustainability in logistics. We're proud to lead the way — because sustainability is essential for both the planet and our future.
